

Leverage Hong Kong simple and low tax system

Hong Kong is heart land of China and have favourable tax incentives and policies for easy access to Greater Bay Area and other cities in China. Hong Kong is a tax heaven for both entrepreneurs and companies with low tax rates. Corporate Income Tax is as low as 8.25% for the first HK\$2 million net profit and 16.5% for the remaining net profits over HK\$2 million per company per financial year. High tax allowance for companies and individuals, no VAT, no capital gain tax, no tax on dividend income, no inheritance tax and you money can go anywhere with a touch of your finger print on your mobile internet banking.

We helped lots of client to re-engineer their transfer pricing among their international companies. Besides, leverage the zero tax on capital gain tax and dividend income, we help lots of clients to transfer huge amount of after tax money back to their home countries without paying any taxes.
